PERFORMANCE RATINGS

This studless winter high performance collection with multi-angle siping is designed to enable larger grounding area, providing higher safety performance and excellent traction under wet and snow conditions.

BENEFITS

- Three-Dimensional and Deep Right-Angle Design of the outer shoulder increases the shovelling ability.
- Suction Pump and Water Storage Hole Design enables the tread to absorb the water film on the surface of ice and snow into the suction pump.
- Zigzag Trapezoid Grooves, narrow on the top and wide on the bottom, under the force of tire and ground to form a snow pump, could break the water film in short time, will discharge the snow and water easily.
- Stepped Snow Shovel Design in Z-Type Pattern Grooves makes sure tire and road are stay attached, enhanced grip ability.
